

Technology Roadmap

Please complete and return the suggestions form to identify technologies you believe should be put on the BGA Technology Transfer Roadmap.

New, emerging and current technologies you feel are not yet fully exploited. Identify technologies that are not yet available but should be developed to overcome knowledge gaps and problems that need to be solved such as; prediction of heat treatment distortion. When we have consolidated these results, we will engage you with the subsequent prioritisation and selection process that will be follow.

Please feel free to copy and share with your colleagues. We need open thinking to ensure nothing of significance is missed and look forward to your input and contribution.

Company Name: _____

Suggested Technology to be placed on Roadmap	Possible impact of suggested Technology	Any known expertise or background information	Additional comments plus any suggested actions by BGA

Completed forms emailed to Kirsty and Lindsay in the BGA Office admin@bga.org.uk

Check out www.bga.org.uk/technologyroadmap for updates.
